

Quantum Art at Ars Electronica

Ars Electronica

Karl Jansen

Linz, 5.9.2025

Overview

> QC-PAINT at Ars Electronica

Ars Electronica

- > Statistics
- > 5 days
- > over 122.000 visits
- > 1,472 artists, scientists and activists from 83 countries
- > 51 co-curators
- > 398 collaborators
- > 440 cooperation partners
 - DESY – Ars Electronica cooperation
- > 379 exhibits
- > 684 events

Ars Electronica

> A happy QC-PAINT team after the deep space presentation at Ars Eletronica

From left to right: Karl Jansen, Omar Costa Hamido, Arianna Crippa, Paulo Itaborai

Ars Electronica

> Jansen giving a lecture on quantum computing in deep space at Ars Eletronica

Ars Electronica

- > Crippa explaining quantum art at the example of Caravaggio's Narcisso

Ars Electronica

> A 3-D quantum computer model exhibited at Ars Eletronica

Ars Electronica

- > Jansen explains quantum gates in a discussion session at Ars Electronica
 - in the background the hand painted quantum transformed Narcisso

Ars Electronica

- > The quantum computer music concert at Ars Eletronica
 - left: Paulo Itaborai, right: Dino Vicente

Thank you!
